I, Evelyn J Hopf, am a registered voter in the state and county listed above.

I believe the elections in my county and WA state need a Full Forensic Audit and verification as to accuracy. After reviewing the WEiCU videos and evidence presented by both Seth Keshel and Jovan Hutton Pulitzer, I believe there are many red flags as to errors with our voting system that need to come to light and be corrected. I believe there are many errors in voter registration and documentation which also need to be corrected.

I declare under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

BEFORE ME, the undersigned Notary Public, Joseph Grant personally appeared, who currently resides at 2 Gray Birch Lane in the county of Whatcom in the state of Washington and makes this statement and affidavit upon oath and affirmation of belief and personal knowledge that the matters and facts set forth herein are true and correct to the best of her knowledge:

I, Joseph Grant, am a registered voter in the state and county listed above.

I received a primary voting ballot from Whatcom county when this was not my registered voting address and was also issued a ballot at my registered address, from Snohomish county at the time. Therefore, I was issued 2 ballots and was forced to get a third one in person to ensure my vote would count. I had not yet lived at the residence for 30 days, and had not changed my address with any organization such as the DOL, bank, mail carrier, insurance, cellular provider, etc. as I wanted to ensure the living situation would work out first. I only remember typing the address into google maps and text messages nowhere else. There was no way the county of Whatcom should have even known I was living here yet, but whatever method they used to connect me to the address they should not have mailed me a ballot because I had not registered to vote there. I am concerned this was an intentional act of fraud to render my vote null and void.

I declare under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

STATE OF: WASHINGTON

COUNTY OF: WHATCOM

BEFORE ME, the undersigned Notary Public, DARCY HOCKER personally appeared, who currently resides at 441 FLAIR VALLEY COURT, MAPLE FALLS WA 98266 in the county of WHATCOM in the state of WASHINGTON and makes this statement and affidavit upon oath and affirmation of belief and personal knowledge that the matters and facts set forth herein are true and correct to the best of her knowledge:

I, DARCY HOCKER, am a registered voter in the state and county listed above.

I am joining this as a plaintiff because I have been voting in Washington State since November 2000. I have had doubts about the chain of custody with the election here in Whatcom County for years. First of all, it is way too easy to access the VoteWa.gov website and change information or request a new ballot. You can actually print a ballot to turn in which is so unethical and breaks chain of custody and the authentication process. When you go to validate that your ballot has received, you only get one word accepted. Which only amounts to them scanning the barcode on the outside of the envelope.

When I went to drop off my ballot for the 2020 election downtown there were people putting ballots into unsecured containers. When I got up to the box the attendant tried to grab the ballot out of my hand. I had to ask to see her identification. Her badge did say she was on the election team. So, I reached past her and put it into the box.

Then there is the issue of the ballots identifying party on the outside of the envelope by either a red or blue design.

I have also seen the video of how ballots were processed in the Whatcom County Election Center. There was only one person per table when there should be at least two. There was a woman who was marking ballots. It appeared that she crossed out a name and drew in a new bubble. There was no oversight. There were no checks and balances. There was no accountability. The persons who were supposed to be watching were playing on their phones, in another area completely.

One area that I would like clarity on is the ballots that had a write in nomination for lieutenant governor of Joshua Freed. I believe that these ballots were placed aside for arbitration. I believe that these ballots were taken out of the chain of custody.

I have seen other reports, that I do not have in my possession, of ballot numbers in Whatcom County being changed in the favor of the democrat party.

I believe that actions need to be taken to secure and validify the chain of custody for all future elections. What we have right now leads to too many areas where chain of custody and accountability has been broken. Having an audit to see where the issues reside is the best choice moving forward for all citizens of Whatcom County and Washington State. This way we have a base line and can improve the chain of custody as well as the ballots themselves. This makes it so any and all elections in the future have clear signatures of every person involved with processing the ballots as well as images of the ballot received for the voter to be able to verify online or in person.

I know and understand that as a resident of Whatcom County and Washington State that I

have 22 months to request access to see the ballots and request an audit to happen. I am not looking to overturn 2020 election results. I am aware that the Whatcom County Auditor has refused to cooperate with Washington State law to make the ballots available. Furthermore, she went on the city website and put out a piece trying to discredit the videos and reports. To me this behavior seems like she has something to hide. If she did not, she would be open and transparent about having an audit. So, to remove all doubt for all Whatcom County citizens, please grant that we may have access to the ballot images and the original ballots.

Secure elections benefit all people involved and will bring integrity to the voting process and to people believing that their vote is worth something.

I declare under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.
